

# INTRUDER ALARM SYSTEMS

A person wearing a white shirt is shown from the chest down, holding a pencil and drawing a circuit diagram on a piece of paper. The background is blurred, showing a warm, golden light. The text "INTRUDER ALARM SYSTEMS" is written in a bold, sans-serif font in the top left corner.

## INTRUDER ALARM SYSTEMS

*Take the first step in  
enhancing your  
security with a  
comprehensive  
intruder  
alarm system bespoke  
to you.*

# OUR SERVICE

**Recognising the individuality of your property and personal requirements, we always tailor build our systems to your precise security needs.**

We provide complimentary residential and commercial surveys for you, undertaken by a member of our experienced installation team. Our installation service includes a full range of alarms from bell-only systems, which is a quick proactive way to deter criminal activity, to fully monitored systems which can include police response and panic alarms. Detecting an intruder at the earliest opportunity increases response times.

Following the installation, we run through the system and program it to your exact specifications, including pet-friendly settings. All installations are designed and compliant with the highest standards, recognised by insurance companies, and come complete with an NSI Gold certificate.

We have an extensive range of premium alarm systems selected from the best manufacturers and suppliers within the industry. We install systems produced by Texecom, Eaton, and Orisec. Each is hand-picked for its specialist products and quality manufacturing.
