of your
intruder alarm.*

OUR SERVICE

Have around the clock professional security monitoring for the intruder alarm at your property through us.

We have meticulously vetted our chosen monitoring partners ensuring they hold the same consistent standards we operate to. They provide an effective response protocol to any alarm alert you may experience and work closely with us to provide you with a seamless security service no matter whether it is day or night.

We can add extra levels of security with the addition of a level 1 Police response and further this by adding panic alarms, guaranteeing that confirmed alerts are answered not only by the alarm receiving centre (ARC) but are additionally transferred to the local Police force for their attendance.

Our monitoring and maintenance packages include two maintenance visits per annum, ensuring the alarm functionality is effective and continues to operate as an invaluable security tools for many years to come. We also offer a maintenance only package with one inclusive service visit for those who wish to have the peace of mind a regular service provides without the ARC or Police monitoring.

SERVICE DETAILS:

- **Remote monitored alarms**
 - **Police response alarms**
 - **Panic alarms**
 - **Annual maintenance visits**
