

SECURITATEM INSTALLATIONS®

*Bespoke Security*

# **SPECIALISTS**

Entrust your personal and property security to the best with a bespoke security service from us. Our security system installations can provide you with a personalised solution to your distinctive safety concerns, our services are not available off the shelf and are designed exclusively for you, always giving you the highest quality in security system installations, maintenance, and monitoring.

## INTRUDER ALARMS

*For everything you want to*

# PROTECT

Take your security to the next level with a custom-made intruder alarm system. Taking into consideration every unique risk factor, we develop an individualised security response for you. Every aspect of your system will be specially selected to protect you and your property thoroughly.

## ***Intruder Alarms***

We have a comprehensive range of premium alarm systems selected from the best manufacturers and suppliers within the industry which we install to the highest professional standards. Ranging from fully monitored, to bell-only systems, we design and manage every aspect of your tailor-built system.

## ***Monitoring & Maintenance***

Providing ongoing support to your intruder alarm system. We can offer 24/7 monitoring direct to a receiving centre with level 1 police response. We additionally manage the maintenance of your system, to ensure its functionality for many years to come.

## ***Alarm Takeover***

Enhance your existing security system with our intruder alarm takeover service. We will assess your current intruder alarm, offering our advice to upgrade it where this is required, and provide ongoing monitoring and maintenance support.

*Prioritising your*

## **SECURITY**

Elevate your property security with the prompt installation of a bespoke CCTV system. Make your security a priority now and for the future with the addition of one of our leading systems, you no longer have to live with the impending possibility of a threat without sufficient protection measures.

## ***CCTV Installations***

We offer a complete range of CCTV systems to suit your personal preferences, from systems with remote and live viewing capabilities to stand-alone systems. All our systems are individually designed and installed by specialists to provide our answer to exemplary security coverage.

## ***Smart CCTV***

We provide the option of remote monitoring via a secure app on your digital device for all compatible CCTV systems. Allowing you to check and review footage of your property anywhere in the world. Additionally, you can benefit from notifications on events or incidents at your property.

## ***CCTV Upgrades***

Whether you require additional cameras on your property, an upgrade to systems and software for improved usability, or wish to install the latest advances in security technology, including high definition, license plate recognition, and body movement analytics, we can provide all of these CCTV services for you.

*Enhancing your*

## **SAFETY**

Reduce the prospect of a security breach with the integration of an access control system at your property. Relax in the knowledge that our systems are working to keep unwanted individuals out, and you and your property safe.

## ***Access Control***

We offer a comprehensive range of access control systems from the leading manufacturers, approved for their diverse specifications, performance functions, and aesthetics. From these, we can hand select a system especially suited to your property.

## ***Video Entry***

Take access protocols to the next level with video entry. Visual confirmation systems for access are highly intuitive, reliable, and cutting edge, giving you an additional point of security. Systems can be integrated for answering via an entry interface, handset, or your mobile device.

## ***Gates & Barriers***

We can facilitate and arrange the installation of security gates, barriers, and turnstiles on your property and exterior land, providing a vital element in definitive perimeter security. Providing you with the security, safety, and privacy that come with these advanced access control measures.

*Delivering expert security advice, guidance, and resources for your protection from external and internal threats, nationally and internationally.*

The Securitatem Group exudes quality service and traditional values cultivated from over 400 collective years of UK law enforcement and security industry experience. Able to deliver our security services to the highest standards within the industry whilst providing our clients with unrivalled care and consideration.
